Faculty Of Arabic Language

Al-Azhar University

(2019-2025)

SUMMARY

Hello, I'm Saif, an experienced web developer dedicated to creating innovative and user-centric digital solutions. With a proven track record of transforming ideas into functional, high-performance web applications, I am committed to delivering exceptional user experiences through meticulous attention to detail and a deep understanding of modern web technologies.

My extensive experience includes developing dynamic web pages, robust backend systems, and seamless user interfaces, all while ensuring security and scalability. I thrive in collaborative environments and am passionate about leveraging my expertise to turn visionary projects into reality. Let's work together to create something extraordinary.

- React Native
- PugJs
- Redux
- Redux-Saga
- NextJs
- Git
- firebase
- Node Js
- MongoDB
- Express
- OWASP Top 10 vulnerabilities

LANGUAGE

- Arabic: Native Speaker
- English: Intermediate

WORK EXPERIENCE

Meta React Native Bootcamp

(Oct 2023)

Enriching experience in a React Native bootcamp, gaining proficiency in cross-platform mobile app development. Covered essential concepts, including data handling, version control, and React basics. Developed a Capstone project and honed programming skills in JavaScript, laying a solid foundation for continued growth.

Eshop Mobile App

(Sep 2023)

Developed feature-rich Android apps, including a fully functional e-commerce app from scratch. Acquired skills in backend data management, implemented Redux for user session persistence, and added user-friendly cart and authentication. Leveraged Laravel as the backend service for efficiency and reliability.

Clothes_Shop

(Jul 2023)

Welcome to Clothes Shope, a React and Redux-powered e-commerce platform. Featuring a streamlined interface, users can effortlessly explore categories, shop for a diverse range of products, and manage their cart seamlessly. My secure user authentication, supporting Google and email sign-ins, ensures a personalized experience. Powered by Firebase, my platform guarantees reliability and efficiency. Join my project for a user-friendly, secure, and continuously evolving online shopping experience.

Eshop

(Feb 2023)

Welcome to Eshop, where cutting-edge technology meets seamless online shopping. Powered by React and Redux on the frontend and backed by Laravel, my platform offers a rich user experience. Explore my home page, thoughtfully organized into categories for easy navigation.

On the shop page, discover a diverse array of items, each elegantly displayed. A user-friendly cart system allows you to effortlessly manage your selections. Sign up or log in securely using Google authentication or email, unlocking a personalized journey.

Weather app

(Sep 2023)

Developed a React Native weather app for seamless weather updates. Users can search and monitor weather conditions globally. Features an intuitive interface, personalized city selection with AsyncStorage, and a visually pleasing design. Elevate your weather-checking experience with the Weather App.

My project's search feature enables users to find items by name, ensuring a swift and efficient shopping experience. For added security, only authenticated users can add items to their cart. At checkout, users can review, adjust quantities, and seamlessly complete their purchase. Join my project for a secure, and feature-packed online shopping adventure.

FashFlash

(May 2024)

Crafted a feature-rich web application independently. Proficient in advanced filtering for product search, detailed product information display, and user authentication with session persistence. Implemented multiple user roles for varied permissions. Security features include email verification and login blocking. Users receive order notifications and can request refunds. Admins manage the platform via a comprehensive dashboard. Leveraged business logic optimization for enhanced security.

CERTIFICATIONS

- Meta React Native Specialization
 - Introduction to Mobile Development
 - Programming with JavaScript
 - Version Control
 - React Basics
 - React Native
 - Working with Data
 - Principles of UX/UI Design
